

NANAY Holds Seminar on Stroke

March 7, 2023

North Miami, Florida

On March 4, 2023, Elinor Faldas shared her expert knowledge on the types of brain stroke, the many causes of brain stroke, the symptoms of brain stroke, prevention of brain stroke, and the importance of calling 911 as soon as any symptom of impending stroke appears which include sudden loss of balance, loss of vision on once or both eyes, facial distortion, weakness of arm or leg, slurred speech or trouble in speaking and understanding of spoken words, and severe headache.

Faldas has 41 years' work experience at Mount Sinai Medical Center in Miami. She is currently working as Charge Nurse in Neurological and Neurosurgical ICU Primary Responder for RRT (Rapid Response Team) and Primary Responder for SAT (Stroke Alert Team). She is a CCRN (Certified Critical Care Registered Nurse), CNRN (Certified Neuroscience Registered Nurse) and SCRN (Stroke Certified Registered Nurse).

Her seminar was rated Excellent (5 out of 5) on the usefulness of the content, the presenter's knowledge in the subject, and the presenter's style of teaching.
